

## Total Lift Bed Straps

### **Regular strap**

VG-TLB-ST660 Straps for TLB425 Straps for TLB425 TLB Safety Straps 6" \* 64" (15cm \*163cm)

Price \$45

Description: This is the strap that comes standard with the Total Lift Bed. 95% of the straps used are this one. It's applicable on most patients in most positions on the standard Total Lift Bed frames that are rated for 425lbs.

### **Wide Strap**

VG-TLB-ST-964 Straps for TLB425 TLB Safety Straps 9" \* 64" (23cm \*163cm)

Price \$77

Description: The Wide strap is the same length as the standard strap but it's wider. We see it most used behind the buttocks of a user is in the tilt plus Trendelenburg position.

### **Wide and Long Strap**

VG-TLBB-ST-968 TLBB Safety Straps 8" x 96" (20cm\*240cm)

Price \$103

Description: The Wide and Long Strap was designed with our now discontinued bariatric bed. We see it most used for the bariatric beds that are still in the market and for patients near the high end of the standard bed's weight limit with a large abdominal area.
